Role of the ESI-TDR NTAG and its Technical Advisory Committees (TACs)

The purpose of the Electricity Supply Industry - Transmission Distribution and Rail National Training Advisory Group (ESI-TDR NTAG) is to:

1. provide policy advice to the Electricity Supply Industry Sector Council of EE-Oz Training Standards about competency and training issues in the Transmission, Distribution and Rail Sector of the ESI Industry
2. maintain the ESI - Transmission Distribution and Rail National Training Package

Further the TDR NTAG provides technical training advice to the ESI - Sector Council about technical training related to the ESI - Transmission Distribution and Rail Training Package in the ESI Industry.

This advice may be in the form of:

- minor amendments,
- unit content,
- proposal for new unit research and development,
- unit to essential knowledge and skill alignment,
- content of learning specifications,
- content work performance specifications, and
- other training and assessment related advice

ESI-TDR NTAG meets at least twice a year and has prime carriage over technical and implementation advice on the Package. A set of Protocols adopted by the Electricity Supply Industry Sector Council assists the ESI-TDR NTAG management and meeting processes, including the election and role of the Chair. Membership is open to all persons and practitioners with an interest in the development of the ESI-TDR Industry.

TACs (Technical Advisory Committees)

TAC's have been established by the ESI-TDR NTAG in order to support its work at specific technical discipline levels covering AQF Certificates I to Advanced Diploma. TACs are responsible for reviewing, developing and advising NTAG on matters of technical discipline content.

Chairman: ESI TDR NTAG – Tom Emeleus email: temeleus@energy.com.au **Convenor: ESI TDR NTAG - John Karsznia email: ee-oz@ee-oz.com.au**	
Eight TACs have been established to date:	**Area of responsibility:**
P&T – TAC (Protection and Testing) Chair: Rod Clarke email: rod.clarke@westernpower.com.au	Diploma of ESI — Power Systems UET50109 (Protection/Testing) Advanced Diploma of ESI — Power Systems UET60109 (Protection/Testing)
Substations & Infrastructure - TAC Chair: Carl Thompson email: carl.thompson@powerwater.com.au	Certificate IV in ESI — Substation UET40209 Certificate IV in ESI — Network Infrastructure UET40309
Design – TAC Chair: Craig Jones email: CraigJ-ELT@nmit.vic.edu.au	CIV in ESI – Power Systems (Design Units) UET40109 Diploma of ESI — Power Systems UET50109 (Design) Advanced Diploma of ESI — Power Systems UET60109 (Design)
T&D – TAC (Transmission, Distribution, Cable Jointing & Live Work) Chair: Rod Gunton email: rod.gunton@integral.com.au	Certificate II in ESI — Transmission Line Assembly UET20209 Certificate III in ESI — Transmission UET30109 Certificate III in ESI — Distribution UET30209 Certificate III in ESI — Cable Jointing UET30409 CIV in ESI – Power Systems UET40109 (all except Rail & Design units)
System Operations - TAC Chair: John Richards email: john.richards@ergon.com.au	Diploma of ESI — Power Systems UET50109 (System Operations) Advanced Diploma of ESI — Power Systems UET60109 (System Operations)
Rail - TAC (Rail Traction) Chair: Noel Arandt email: Noel.arandt@maincomelbourne.com	Certificate III in ESI — Rail Traction UET30309 CIV in ESI – Power Systems UET40109 (Rail units) Certificate IV in ESI — Network Infrastructure UET40309 (Rail units)
VC - TAC (Vegetation Control) Chair: Bruce Scott email: bruce.b.scott@tafetraining@skillsrec.com.au	Certificate II in ESI — Vegetation Control UET20109 (+ vegetation units in other qualifications)
7. Skills Passport – TAC (Currently in Hiatus)	Skills Passport
